

CMSDAS2012 Z+Jets+MET: The JZB analysis

Contents

- Abstract
- Overview talk
- Organization of the exercise
 - Target
 - Structure
 - Skills and Tools
 - Setting up the environment
 - ROOT NTuples
 - Analysis framework
- The Z+Jets+MET signature (understanding the content of the NTuples)
 - Discussion about the preselection in the NTuples (Trigger and lepton+jet quality criteria)
 - Common selection
 - Muon selection
 - Electron selection
 - Jet selection
 - Pile up reweighting
- Identification of the backgrounds
 - Practical exercise
 - Questions
- Signal and calibration
 - The JZB variable
 - Summary
 - Practical exercise
 - Questions
- Background prediction
 - Prediction of Z+jets
 - Prediction of ttbar
 - Closure test
 - Practical exercise
 - Questions
- Uncertainties
 - Uncertainty on the Z+jets prediction
 - Uncertainty on the ttbar prediction
 - Practical exercise
 - Questions
